22 February 2022

Dear Whānau o Prospect,

As you are all aware we have had a few cases of Covid at school. Thank you so much to those of you who have immediately kept us informed when there have been cases in your family.

As of today we are now in Phase 3 Red. This means

- People will only need to isolate if there is a positive Covid case in the household. If you or your child tests positive please follow the [advice from MOH](#). As well as isolating at home for 10 days you will need to notify family and friends who live with you or frequently visit your home. These people are Household Contacts.
- If you or your child tests positive please contact the school immediately to let us know if your child has Covid, has symptoms of Covid or is a Household Contact.
- We will continue with the protocols we currently have at school. Only parents of children who are 5 years old are allowed on school premises and you must scan in and wear a mask. Children will continue to be in bubbles including at break times. Year 4 - 6 students must wear a mask.
- If your child is unwell please keep them at home. The symptoms of Covid are a new or worsening cough, sneezing and runny nose, a fever, temporary loss of smell or altered sense of taste, sore throat, and shortness of breath. If your child shows these symptoms while at school we will be contacting you to collect them.
- Please make sure we have your up to date details and someone in the family will be ready to collect your child if they show symptoms.

Please contact me if you have any questions.

Noho ora mai
