

**AUCKLAND COUNCIL**

# ***SUSTAINABLE ENVIRONMENT AWARDS***

Congratulations to all the students of REAF – especially those who have played a big part in the development of our Peace Garden. This year the Peace Garden was nominated in the Auckland Council’s ‘Sustainable Environment Awards’ because it met all the criteria as something that protects and enhances Auckland’s environment and heritage.

On a Monday night in late July, Margaret, Roy, Del, Kate, and Osmana represented REAF and went to the Town Hall to hear Mayor Len Brown give a speech on environmental sustainability in Auckland. Mayor Brown commended all the entrants in the awards ceremony and there are many wonderful environmental programmes happening around Auckland. The REAF garden is one of them and our students have put in so much work to make this wonderful, organic, sustainable environment.
