

## GAMES WITH 3B

In this picture 3B is very busy speaking lots of sentences while they play Snakes and Ladders. If they speak a sentence incorrectly they have to go back to the beginning of the game. If they land on a snake then they have to follow it down the board. They do not like this at all. 3B students are very good at listening to each other – as long as they are not sitting with their friends too often because then everyone wants to talk. Irene is very helpful as our volunteer with those who need help and she plays as well.

Carlos, Ken and Myint are very good at this activity.
